Offer

The operator receives an offer from INDOCERT for the inspection and certification services. The offer is an estimate of the expected work time and expenses based on the information given by the operator. The invoiced amount can exceed the offer if justified. Additional time for inspection caused by missing or wrong information due to the operator's shortcoming, or for services not included in the offer, will be charged extra to the client.

75% of the estimated total fee has to be paid as an advance fee after which the inspection will be carried out. The certification process will only begin after receiving the balance payment of the final invoice.

Alterations of the certification fee structure are informed to the operators in advance.

Additional inspections imposed by the Certification Committee according to the scale of sanctions or additional investigations necessary due to detection of serious non-compliances will be charged according to the scale of fees taking into account the necessary time and costs.

**Additional testing due to the detection of serious non-compliances beyond the mandatory 5% will be charged actuals

In cases where the client has already paid the initial advance amount of the offer and the inspection date is finalized with inspector, but after the arrival of the inspector on the farm the client feels that he is not interested to go for inspection and certification, the advance amount will be returned to the client only after deducting the actual expenses incurred (traveling) and 10% of the initial advance (75% of the offer).
